

WEATHER WATCH

OUTLOOK FOR THE NORTHERN SACRAMENTO VALLEY

North of Highway 20 to the Red Bluff Area

PREPARED BY METEOROLOGIST ERIK MOLDSTAD

Thursday - November 8, 2007 from Precision Forecasting (800)-624-0499

SUMMARY / DISCUSSION.... Good Morning... A broad upper level trough moving inland will bring cooler air into the Valley today and more cloudiness tonight and tomorrow. A weather system is expected to move inland Saturday evening and night bringing some rain to most areas. Following this system skies will clear up on Sunday with dry weather continuing Monday despite increasing cloudiness in the afternoon. More unsettled weather is possible next week but not much moisture is expected as the storm track stays north of our area... Erik

CLIMATE DATA AROUND THE VALLEY

Location	Yesterday	AM	Forecast
Corning	89 / 41 / 0.00"	41	74 / 47
Chico	81 / 41 / 0.00"	43	73 / 46
