WEATHER DISCUSSION & SUMMARY

Good Morning.... A warm front is lifting northward this morning and should stall over Skagit County this afternoon. Areas south of Skagit County should dry out by mid morning with the threat of rain continuing in Whatcom County most of the day. Rain will move inland late tonight with showers behind the front tomorrow. The frequency of the showers will decrease throughout the day so the afternoon won't be too bad. Unsettled weather will continue over the weekend and likely most of next week as the storm track sets up and stays over or near the Pacific Northwest.... Erik

5am temperatures in Western Washington are in the upper 40's to low 50's.
